AAAS Statement on President Trump’s State of the Union Address

“We are frustrated by the disregard for science shown by the U.S. administration. Our economy depends on innovation, science and technology, which should be top priorities for any nation’s leader. As other countries increase their attention to and investments in science and technology, the United States will make falling behind a new reality.”

-- Rush Holt, chief executive officer, American Association for the Advancement of Science (AAAS)

###

The American Association for the Advancement of Science (AAAS) is the world’s largest general scientific society and publisher of the journal *Science*, as well as *Science Translational Medicine*; *Science Signaling*; a digital, open-access journal, *Science Advances*; *Science Immunology*; and *Science Robotics*. AAAS was founded in 1848 and includes nearly 250 affiliated societies and academies of science, serving 10 million individuals. *Science* has the largest paid circulation of any peer-reviewed general science journal in the world. The nonprofit AAAS is open to all and fulfills its mission to “advance science and serve society” through initiatives in science policy, international programs, science education, public engagement, and more. For additional information about AAAS, see www.aaas.org.
